

Sample Development Proposal Document (PDF Content)

Applicant Name: Greenview Estates Pvt. Ltd.

Date: June 15, 2025

Project Title: Greenview Eco Villas

Location: Survey Nos. 130/A, 131/B, Ibrahimpatnam Mandal, Ranga Reddy District, Telangana, India

Land Area: 15 Acres

Application Type: Residential Layout Approval

Proposed Land Use

The developer proposes to construct:

- **48 individual villas (G+1)** with low-density design (3 villas per acre).
- **Internal roads:** 30-foot wide paved roads with stormwater drainage.
- **Green landscaping:** 30% of the land dedicated to parks, tree cover, and open spaces.
- **Community amenities:** A small community center (5000 sq. ft.) with a multipurpose hall and rainwater harvesting system.
- **Sustainable features:** Solar panels for street lighting, permeable paving, and a sewage treatment plant.

Site Location Details

- **Latitude / Longitude:** 17.1750° N, 78.6700° E
- **Access Road:** 50-foot wide paved road connected to Ibrahimpatnam-Chintapalli Main Road.
- **Proximity Landmarks:**
 - 2.5 km from Ibrahimpatnam Cheruvu (lake), ensuring no direct adjacency to the water body.
 - 3 km from Manchal Forest Zone, outside the forest buffer area.
 - 500 meters from the proposed Outer Ring Road (ORR) service road, ensuring good connectivity.
- **Zone:** Residential Zone (R1) as per the Hyderabad Metropolitan Development Authority (HMDA) Master Plan 2031.
- **Environmental Notes:**
 - No wetlands, floodplains, or protected areas within 1 km of the site.
 - Soil test confirms stable, non-agricultural land suitable for construction.

Project Specifications

- **Total Units:** 48 villas (2BHK and 3BHK, 1500–2000 sq. ft. each).
- **Building Height:** Ground + 1 floor (max height: 7 meters).
- **Setbacks:** 10 meters from all boundaries, exceeding HMDA requirements.

- **Infrastructure:**
 - Underground utilities (electricity, water supply).
 - On-site sewage treatment plant compliant with Telangana Pollution Control Board (TPCB) norms.
 - Fire safety measures as per National Building Code (NBC).
- **Environmental Compliance:**
 - Environmental Impact Assessment (EIA) submitted to TPCB, with no significant adverse findings.
 - 500 native trees to be planted to enhance green cover.

Additional Notes

- The project aligns with the HMDA Master Plan 2031 for low-density residential development.
- No encroachment on public land, water bodies, or forest zones.
- Community consultation held on May 20, 2025, with no objections from local stakeholders.
- Traffic impact study confirms minimal impact on Ibrahimpatnam-Chintapalli Main Road.
